**Preparing the Footings on the New Sluiceway**

**The Framework for the Sides of the Sluiceway  
Have Begun**

**The Walls of the Sluiceway have been poured in stages.**

**The New Sluiceway is in and the job is closing for the Winter**

**The Sluiceway Wearing a Winter Coat  
Waiting for Spring**

# ***What Follows***

- *Work will commence on the main dam in mid-summer, when water is at its lowest point in the pond.*
- *A pocket park is planned for the area to the left of the auxiliary dam.*
- *Removal of non-native invasive plants will begin with improvements to the area around the pond.*
